

Leiden International Centre 2026 Partnership Programme

Leiden International Centre is a business unit of Leiden&Partners. We work with businesses in the Leiden region exclusively through our Partnership Programme.

Leiden International Centre is a non-profit organisation which offers services for each phase of expat life: coming to, settling in, living in and leaving. Our services contribute to simplifying and improving life for internationals in the region. We also offer support for businesses who employ internationals.

By joining our Partnership Programme, your business will be connected with the growing international community in the Leiden area. We will refer to you as a “Partner” in virtue of the close relationship established. Shared benefits and support for each other is at the core of our collaboration.

Advantages of joining the Partnership Programme

Leiden International Centre is the first point of contact for many internationals moving to Leiden, and we support them on every step of their journey. This includes information on our website, social and informative events, newsletters, social media and assistance from our helpdesk. Businesses and HR also get in touch with us to discuss how they can support their international employees and hire new talent.

Whilst LIC provides a comprehensive range of services, we are also reliant on the expertise of our trusted partners. This is why we consistently refer internationals to our list of partners when they enquire about finding housing, learning Dutch, and other such specialised services.

We work as a “bridge” between you and the expats; we make sure that the international community in the Leiden region will know your name, your work and your area of expertise.

We have a wide spectrum of communication channels which are used to promote our partners.
