MULE RIDING

Explore the path of Antioquian colonization on mule or on foot. In the Cocora Valley, the presence of the wax palm, the world's tallest palm and a national symbol of Colombia, adds to the uniqueness and beauty of the landscape. The combination of wax palms, mountains, rivers, and lush vegetation makes the Cocora Valley an impressive place from both a landscape and ecological perspective.

HIKES AND WAX PALM FOREST

Hiking at Cocora Valley offers stunning landscapes, enjoy a deep inmersión in the wax palm and plant your own. Help us recover this valley. Don't forget to explore the cloud forest and enjoy the unique scenery.

BIRD WATCHING

In the heart of the imposing Andes mountain range, the Cocora Valley emerges as a natural sanctuary, home to a unique biodiversity that attracts nature lovers from around the world. Currently, we have a record of 140 bird species within the Sazagua reserve. Undoubtedly, one of the greatest treasures this valley holds is its richness in birdlife, making it a dream destination for birdwatching enthusiasts.

ANOTHER VISITORS AT SAZAGUA COCORA

Some common features of cloud forests include trees covered with moss and epiphytes, such as orchids and bromeliads, which thrive in high-humidity conditions. Additionally, these forests typically harbor a wide variety of flora and fauna species adapted to the specific conditions of cloud forests, where humidity and the coolness of the environment are key factors.
